Burn patients, initial nutritional support, practice guidelines for, 59S
Burn Prevention
effective education in, 277
Burn Prevention Forum
burn prevention and firefighters, 163
home oxygen therapy, 70
major burn injuries in restaurant workers, 429
paraquat poisoning in burn patient, 346

Burn Rehabilitation Forum, neurologic problems after thermal and electrical injuries, 352
Burn shock, resuscitation of, initial management and overview, practice guidelines for, 27S
Burn treatment, massage therapy effects on distress during, children, 191
Burn unit
inpatient-outpatient clinic, management of, 250
referral to, criteria for, practice guidelines for, 1S

Candles, gel, burns and injuries from, 243
Carbon monoxide, exposure, initial management, practice guidelines for, 10S
Carcinoma, Marjolin's ulcer of scalp, case report and literature review, 65
Cell spray apparatus, melanocyte restoration to epidermis and, 41
Chemical burns
hydriodic acid, superficial, myoglobinuria and hypocalcemia after, 341
paraquat poisoning and, 346
sodium azide, case report, 246
Child abuse
burn injury, 179
thermal injury and, medical evidence and, 180
Children
burn injury causes, socioeconomic and cultural influence on, children in Bangladesh, 269
burn patients, intranasal midazolam effectiveness in, 6
deep palm burns, early excision and full-thickness skin grafting effectiveness, 54
exercise programming vs. traditional outpatient therapy, rehabilitation after severe burn, 214
hospitalized, burn injury, analysis of in Hong Kong, 228
massage therapy during burn treatment, 191
steam burn from electric rice cooker, optimal management of, 15
Colloid resuscitation, practice guidelines for, 43S
Community Integration Questionnaire, integration after burn injury and, 221
Computerized systems
computer-related activities at 2001 ABA annual meeting, 425
Dexter®, rating impairment in burn injury, 397
Cost issues, minor burn injuries care, clinic and emergency room charges, 337
Cyanide, exposure, initial management, practice guidelines for, 10S
Cyclooxygenase, expression of, after burn injury and infection, 58

Debridement
burn, music-based imagery and musical alternate engagement effects on, 47
pain management during, psychosocial forum, 82
Depression, after burn injury, rates, trends, and severity, 417
Dressing care, massage therapy during, effects on distress in children, 191
Dysphagia, duration of, swallowing outcomes and, after burn injury, 441

Education, burn and fire prevention, 277
Elderly patients, toxic epidermal necrolysis and, 132
Electrical injuries, high-voltage, amputation from, prostheses fabrication, 89
Electrical injury, bilateral hemipelvectomy and disarticulation of arm, case report, 321
EMLA: *see* Eutectic mixture of local anesthetics
Employment considerations, barriers in patients with major burn injury, 26
Endothelin-1, pulmonary expression of, after smoke inhalation injury, ovine model, 375
Epidermal tissue, melanocyte/keratinocyte contact effects on keratinocyte proliferation, 9
Epidermis, melanocyte restoration to, cell spray apparatus utility, 41
Epidermoid carcinoma, in scar tissue, 384
Epinephrine, blood loss during burn excision and autografting, 1
Epithelium
burn depth, high-frequency ultrasonography for determination of (letter), 261
cultured, Integra and (letter), 197
microvascular assessment of burn depth conversion, resuscitation conditions and, 406
Escharotomy, practice guidelines for, 53S
Ethics Forum
burn injury related to child abuse, 179
resource utilization for illegal immigrants, 435
Eutectic mixture of local anesthetics, safety and pharmacokinetics of, for postburn pruritus in children, 235
Excision
burn, autografting and, epinephrine effects on blood loss during, 1
early, full-thickness skin grafting and, deep palm burns in children, 54
Extremity burn injury, deep venous thrombosis risk factors and, 128

Fibrin sealant, hemostatic efficacy of, evaluation of, multicenter clinical trial, 99
Fire prevention, effective education in, 277
Firefighters
occupational burn injury and, 163
protective hoods and water content impact on head burn prevention, 165
Flap, osteocutaneous pedicle, salvage of below-knee amputation level after burn injury, 21
Fluid resuscitation
colloid, practice guidelines for, 43S
hypertonic, practice guidelines for, 38S
monitoring of, practice guidelines for, 48S
Foot burn, dorsal, splinting for, 454

Free muscle transfer, fate of, in chronically infected skull burn, case report, 288
Functional impairment, Dexter as tool for rating, 397

Gel candles, burns and injuries from, 243
Grafting, skin: *see* Skin grafting
Gut, neutrophil traffic in, after scald injury, 203
Gut mucosa, growth of, glucagon-like peptide-2 stimulation of, burned rats, 136

Hand burns, thick- vs. split-thickness skin grafts in, 390
Head burns, protective hoods and their water content preventive effects, firefighters, 165
Health care
organization and delivery of burn care, practice guidelines for, 1S
resource utilization for illegal immigrants, 435
Health care costs, minor burn injuries care, clinic and emergency room charges, 337
Hemipelvectomy, disarticulation of arm and, electrical injury effects, case report, 321
Hemostatic agents, fibrin sealant as, in burn patients, efficacy of, multicenter clinical trial, 99
Hospitalization
children: *see* Children, hospitalized
utilization for illegal immigrants, 435
Hydriodic acid, superficial burn, myoglobinuria and hypocalcemia after, 341
Hypercalciuria, hyperphosphatemia and, after burn injury, 187
Hypertonic fluid resuscitation, practice guidelines for, 38S
Hypocalcemia, after superficial hydriodic acid burn, 341

Imagery, music-based, burn debridement process and, 47
Immune response, glucagon-like peptide-2 stimulation of, burned rats, 136
Immunotherapy, *Pseudomonas* vaccination and, 311
Infection
burn injuries and, cyclooxygenase expression and prostaglandin E_2 production after, 58
Pseudomonas aeruginosa vaccination and immunotherapy, 311
skull burn, chronic infection, free muscle transfer fate in, case report, 288
Inhalation injuries
barriers to employment and, 26
diagnosis of, practice guidelines for, 19S
initial management of, practice guidelines for, 19S
smoke, pulmonary expression of endothelin-1 in, ovine model, 375
Integra, cultured epithelium and (letter), 197
Itch control
H_1 and H_2 antagonists and, in burns, 263
postburn healing and, 75
reduction of, during postburn healing, 76

Keratinocytes, melanocytes and, keratinocyte proliferation effects, 9
Knothe, Barbara, in memoriam, 301

Letters to the Editor, 97, 196, 261, 308
Lower extremity, amputation, osteocutaneous pedicle flap for salvage of below-knee amputation level, 21
Lung
extravascular thermal volume changes, chest radiography in severe burns and, 104
neutrophil traffic in, after scald injury, 203
Lung injury, ventilator-associated, high-frequency oscillatory ventilation and, 325

Mafenide acetate, postgraft treatment of necrotizing fasciitis and, 35

from burns, Marjolin's ulcers arising in, 384
postburn, Marjolin's ulcer of scalp, case report and literature review, 65
Serology, cadaver skin donor discards due to, 124
Shock, burn, resuscitation of, initial management and overview, practice guidelines for, 27S
Silver sulfadiazine, morphine-induced, burn analgesia effectiveness, 119
Skin, toxic epidermal necrolysis, elderly patients, 132
Skin color, melanocyte repopulation in full-thickness wounds and, cell spray apparatus utility, 41
Skin donor, cadaver, discards due to serology, 124

Skin grafting
blood loss during, epinephrine effects, 1
cadaver donor discards due to serology, 124
full-thickness
cadaveric human skin for, storage media and temperature maintenance, 393
early excision and, deep palm burns in children, 54
steam burn from electric rice cooker, children, 15
hemostatic efficacy of fibrin sealant and, multicenter clinical trial, 99
mafenide acetate effects in postgraft treatment of necrotizing fasciitis and, 35
neck burns, maintaining neck immobility after, pediatric patients, 366
split-thickness, steam burn from electric rice cooker, children, 15
staples buried in tissue, staple detector for, 232
thick- vs. split-thickness, in hand burns, 390
Skin pliability, assessment of (Letter), 196
Skull burn, chronically infected, free muscle transfer covering and, case report, 288
Sleep disturbance, adult burn injury and, risperidone effects, 210
Sodium azide burn, case report, 246
Splinting, dorsal foot burn, 454
Staple detector, prototype, experience with, 232
Steam burn, from electric rice cooker, optimal management of, children, 15
Stress symptoms, acute, in adult burn injury, risperidone effects, 210
Surgery, burn, reducing blood loss during, 111
Swallowing, outcomes, dysphagia duration and, after burn injury, 441

TENS: *see* Transcutaneous electrical nerve stimulation
Thermal burns, osteocutaneous pedicle flap for salvage of below-knee amputation level after, 21
Thrombosis, deep venous
prophylaxis for, practice guidelines for, 67S
risk factors for, in burn patients, 128
Toxic epidermal necrolysis
in elderly patients, 132
long-term experience with (letter), 97
Transcutaneous electrical nerve stimulation, pruritus relief in burn patient, case report, 274

Ultrasonography, high-frequency, burn depth determination (letter), 261

Ventilation
high-frequency oscillatory, acute respiratory distress syndrome and, 325
protracted mechanical, background pain and anxiety management, critically burned children, 150

Workplace injury: *see* Accidents, occupational
Wound care
itch control using H_1 and H_2 antagonists, 263
necrotizing fasciitis, mafenide acetate effects in postgraft treatment of, 35
Wound healing, itch reduction during, 76
Wounds, ulcerating, Marjolin's ulcer of scalp, case report and literature review, 65
